Work Experiences

Current from January 2019: **Full Stack Web Developer** at Sanebiometrics S.r.l. at Porto Conte Ricerche. My duties and responsibilities are: creation and maintenance of web portals made with the stack Scala/Play/Slick, and normal websites creation.

From January 2018 to January 2019: **Full Stack Web Developer** as a Freelancer. During this year I developed a portal and two CRMs. One is visible at: <https://github.com/danfois/deltap>

From January 2016 to January 2017: **Full Stack Web Developer** and **Analyst Programmer** at Areaweb S.r.l.s. My duties and responsibilities were: creation of web portals (<https://elencoservizi24.it>) and websites, management of websites, management of internal database. Technologies I used there: PHP, Symfony 3, CSS3, HTML5, Javascript, jQuery, MySQL, Wordpress, Apache, Linux, Windows.

From September 2015 to November 2015: **Full Stack Web Developer** at ADVServices in Sassari. I had two projects for which I had to stay in Switzerland for 2 weeks. Here I designed the customer's websites and coded them from scratch, working closely with his team.

From August 2015 to February 2016: **Web Developer and SEO** at LASP System in Sassari. My duties here were: creation of two responsive websites from scratch (one in Italian and one in French), creation of the quote application, database management and search engine optimization.

From September 2014 to December 2014: **Call Center Operator** at Janas Food, with high selling ratio.

Other experiences as a promoter.

Studies

2011 – 2014 Attended **University of Sassari**, Economy and Management.

2010 graduated from Classic High School "D. A. Azuni"

2005 Graduated at Conservatory "Luigi Canepa" in "Theory and Solfeggio"
